Abstract of the Disclosure

I made a sample of the 2-in-1 Tee-N-Bibs, just to see what it would look like, because I was so excited when Gal gave me the idea. Jaylon my nephew have not worn the bib at all because I did not want anyone to see it. the bib part is not made of the thin cloth, it made of a very thick fabric that extra soft and with super absorbency, and with the back of it made a special way to keep the infant or child regular clothing from getting wet from grool or messy from feeding or snacks, I think that this is a wonderful idea, and wish it could have been around for me when my 2 girls was younger.
